

## BUFF DADDY'S BUFFING CORNER

### Swissvax Best of Show Entry Kit

Swissvax is made in Switzerland, and its makers have been wax manufacturers since 1930. The Anwander's family passion for colours, lacquers and waxes stretches over three generations. The concours carnauba waxes for automobiles were originally only produced for the private use of Hans Anwander, grandfather and founder of the company, while each Swissvax container is still blended and poured by hand.

The Best of Show Wax - Entry Collection Kit includes Swissvax's basic surface care products. It comes in a beautifully crafted cooler bag containing: Cleaner Fluid (wax pretreatment) 250ml, Swissvax Best of Show Wax, Car Bath (wash concentrate) 250ml, Pneu (tyre protector) 250ml, applicators (for wax and Cleaner Fluid), two cotton towels, one MicroPolish microfibre cloth (blue), Cooler-Bag, and a Swissvax 60-page handbook. The Best of Show wax is enriched with pineapple and cinnamon oil extracts containing 51 per cent by volume of ultra-pure Brazilian non-bleached and yellow carnauba wax.

**Buff Daddy's verdict:** I've heard a lot about Swissvax's products both through the concours scene and through professional detailers. The Best of Show Wax really did live up to its reputation, offering a deep wet-look glow which I love, combined with excellent durability. The rest of the kit is of fantastic quality, particularly the Cleaner Fluid, which really enhanced the glossy wet-look. The Car Bath had great lubricity which will reduce the risk of inflicting marks in the paintwork while washing, and the Pneu tyre dressing left a great durable finish. I'm very, very impressed. It's expensive but worth it for anyone taking concours seriously. 10/10  
**£190**

### Rubbish Boy's Carnauba Wax Shop

[www.carnaubawaxshop.co.uk](http://www.carnaubawaxshop.co.uk)

**75mm M14 Backing Plate:** A very useful backing plate for use with 80mm polishing foams. Get into those tight little areas that you can't get to with a big pad. For use with rotary polishers that use an M14x2 thread such as the Makita and Metabo rotaries.

**Buff Daddy's verdict:** An essential item for every rotary polisher owner. 10/10  
**£10.90**

**80mm Spot Pads:** Orange Waffle Polishing and Red Waffle Finishing Pads.

**Buff Daddy's verdict:** Great quality spot pads that are a joy to use, superb value.

9/10  
**£3.99 each**

**Fine Poly Clay:** A pack of three fine poly clay bars, presented in a cool storage case. Gentle on the paint, yet a very effective way of removing bonded on contaminants, such as tree sap, tar and bug residue. Use with Mark V Showroom Finish clay lube.

**Buff Daddy's verdict:** A well presented poly clay package that performs well. 8/10  
**£12.50 3-pack Poly Clay**  
**£6.95 Mark V Showroom Finish**

**Wax Applicator Pad:** A soft, shaped foam applicator that is designed to hold the wax on the surface of the pad, rather than letting the wax soak in, making sure that all the wax goes on the car.

**Buff Daddy's verdict:** Easy to use, cheap, but not as good as a 'German' applicator. 7/10  
**£2.49 each**

### Meguiar's Tyre Dressing Applicator

The new Meguiar's Tyre Dressing Applicator Pad is ergonomically designed to assist in the easy application of tyre gels to your car tyres. The contoured grip handle helps to keep your hands clean, and for neater storage, the Tyre Dressing Applicator Pad comes with a protective sleeve.

**Buff Daddy's verdict:** A good solid product that does what it should, but is a little bit expensive. 7/10  
**£4.99**

### Zaino Z-8

Z-8 Grand Finale Spray Seal utilizes 25 new ingredients to bring you the highest level of shine, the deepest depths of gloss, the slickest feel and the most protection available in any detail spray.

**Buff Daddy's verdict:** Z-8 genuinely intensifies the gloss of your paint. Use on top of your favourite wax to add that extra pop and bling. Top tip: Spritz a tiny amount of Z8 directly onto the paint and then wipe with one side of a microfibre towel across the paint to spread, then turn to a dry side to buff to a lovely shine. Only a small amount is needed so a bottle will last a very long time, between 20-30 applications. A Buff Daddy must-have! 10/10

**£18.95**
